

SPOKE DIMENSIONS

All spoke types are available with special spoke angles (BW) $75^\circ - 179^\circ$, bend lengths (HL) and leg length (SL) $6.5 - 20 \text{ mm}$ (depending on spoke diameter). Spoke lengths (L) between $30 - 305 \text{ mm}$ in 0.5 mm increments, Spoke diameters (D1, D2) between $2 - 6 \text{ mm}$ are available.

Chipless forming of both metric and imperial spoke threads (D3).
